WHAT TO EXPECT

With many and varying fishing locations available within a few hours of Darwin there is always somewhere to head for some exciting fishing. Depending on the tides and the time of year River and Reef Fishing Charters will suggest a location which offers the best opportunities at the time.

The big tidal rivers produce some sensational Barra fishing during the run off months from March to May.

Our picturesque billabongs will fish well from June to November.

Our beautiful harbours with their myriad of estuaries will fish well throughout the year depending on the tides.

We are more than happy to fillet, freeze and package your catch to take home. We encourage release of fish surplus to your needs and strongly suggest that fish over 90cm are carefully released.
